MBA Career Services
& Employer Alliance
Setting the Standard. Connecting the Industry.

MBA CSEA School Members:

As a reminder, we will be transitioning to a new employment data system (EDS) on January 1, 2015. This means our current system will no longer be available as of December 31, 2014.

Important items to be aware about the transition:

- The option for schools to directly upload aggregate or student level data will exist to support AUP compliance, but in question is the continued ability to have students go directly to the new site to report their own data. For this reason, we encourage schools using the SDS (student detail system) exclusively to explore your options for management of your employment data. If you need assistance with this, please contact our Standards Committee.
- It is not certain if we will have the ability to transfer historical records from the current EDS to the new one. Therefore, we encourage all schools who used the EDS previously to download their reports and individual data in order to keep a backup copy. If you need to access the current EDS before December 31, please contact usfor access to a temporary site.

Please click here for the notification sent to all members in March, 2014 about this transition.

We look forward to providing you with more information about our new system soon. Until then, please do not hesitate to contact us if you have any questions or concerns.

Regards,
MBA CSEA Standards Committee
